**OVERVIEW**

**BUSINESS BENEFITS**

- Improved tracking of shipments and containers, integrated with business partner systems
- Customer self-service - track own shipments easily
- Enhanced customer / profitability analysis—a highly efficient Job Costing algorithm provides accurate costing information
- Automatic creation of jobs and on-time manifestation
- Better control over invoice creation and job cycle
- Improved irregularity monitoring
- Proactive system alerts for efficient operations
- Easy navigation using the 'Inbox' concept - the whole process can be viewed from a single screen
- Smart Client - optimised for low bandwidth - for single-point master creation that eliminates redundant data entry and ensures data integrity
- Smart Client allows operations to continue even during internet down time
