Axpert™

Hospital Information Management System

A COMPREHENSIVE SOLUTION FOR
COMPLETE HOSPITAL MANAGEMENT

- First HIMS Built on US Patented RAD Technology Platform
- HL7 Compliant
- NABH, NABL Accreditation Reports
- Interoperability and Integrated Finance
- Single Page EMR/EHR View
- Integration with Drug Database

100% Configurable and customizable to individual hospitals and adaptable to your workflows and roles using a user friendly interface.

1.

Patient's Satisfaction

- Transparency, quality & cost
- High Quality Patient Care
- Digital technologies - Self Service
- Electronic health records portability
- Reduced OP waiting time

2.

Doctor's Satisfaction

- Easy Access to EMR and EHR
- Streamlined Appointment Management
- Improved Consultation Turn Around Time

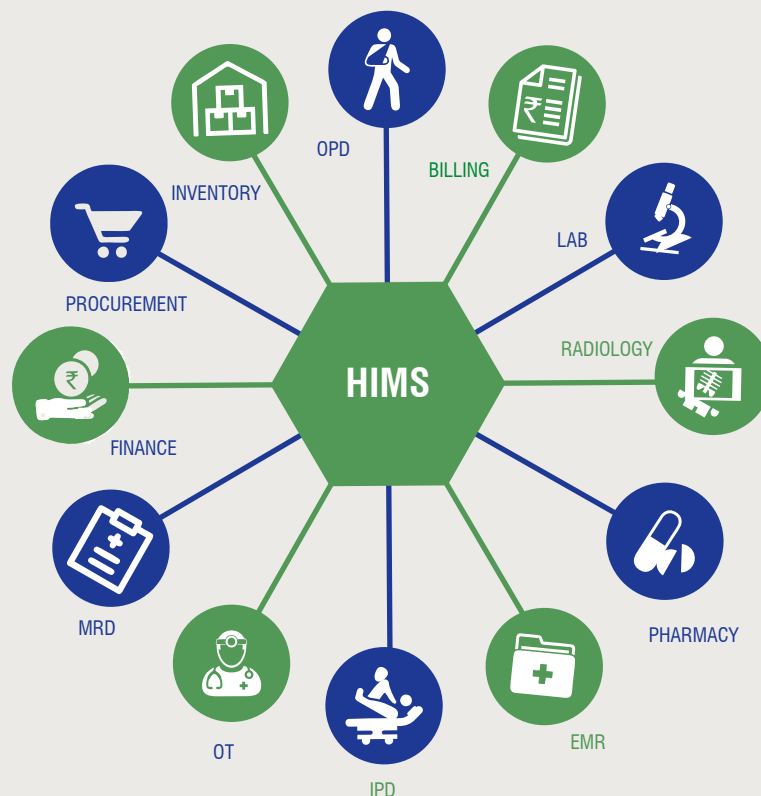

3.

Hospital Management Satisfaction

- Profitability & Prevent revenue leakage
- Increased medical adherence to compliances
- Interoperability, MIS & Intelligence
- Highest Satisfaction to Doctors, Nurses & Patients

What does Axpert™ HIMS comprises?

Axpert HIMS Modules:

PATIENT ADMINISTRATION & PATIENT ENGAGEMENT

- ◆ Appointment, Scheduling and Registration
- ◆ Bay & Queue Management
- ◆ Accident & Emergency
- ◆ Patient Enquiry
- ◆ ADT
- ◆ Hospital Account

CLINICAL

- ◆ Doctor Consultation
- ◆ EMR
- ◆ CPOE
- ◆ Nursing Workbench
- ◆ OT
- ◆ Specialty Modules
- ◆ MRD

ANCILLARIES

- ◆ Lab
- ◆ Radiology
- ◆ Blood Bank
- ◆ CSSD
- ◆ Linen
- ◆ Dietary

REVENUE CCLEY

- ◆ Finance
- ◆ Procurement
- ◆ Inventory
- ◆ Maintenance
- ◆ MIS & Report
- ◆ Dashboards

MOBILE

- ◆ EMR
- ◆ Nursing App
- ◆ Task Notification
- ◆ Administration Dashboards
- ◆ Clinical Dashboards

AXPERT™ FOR HEALTHCARE

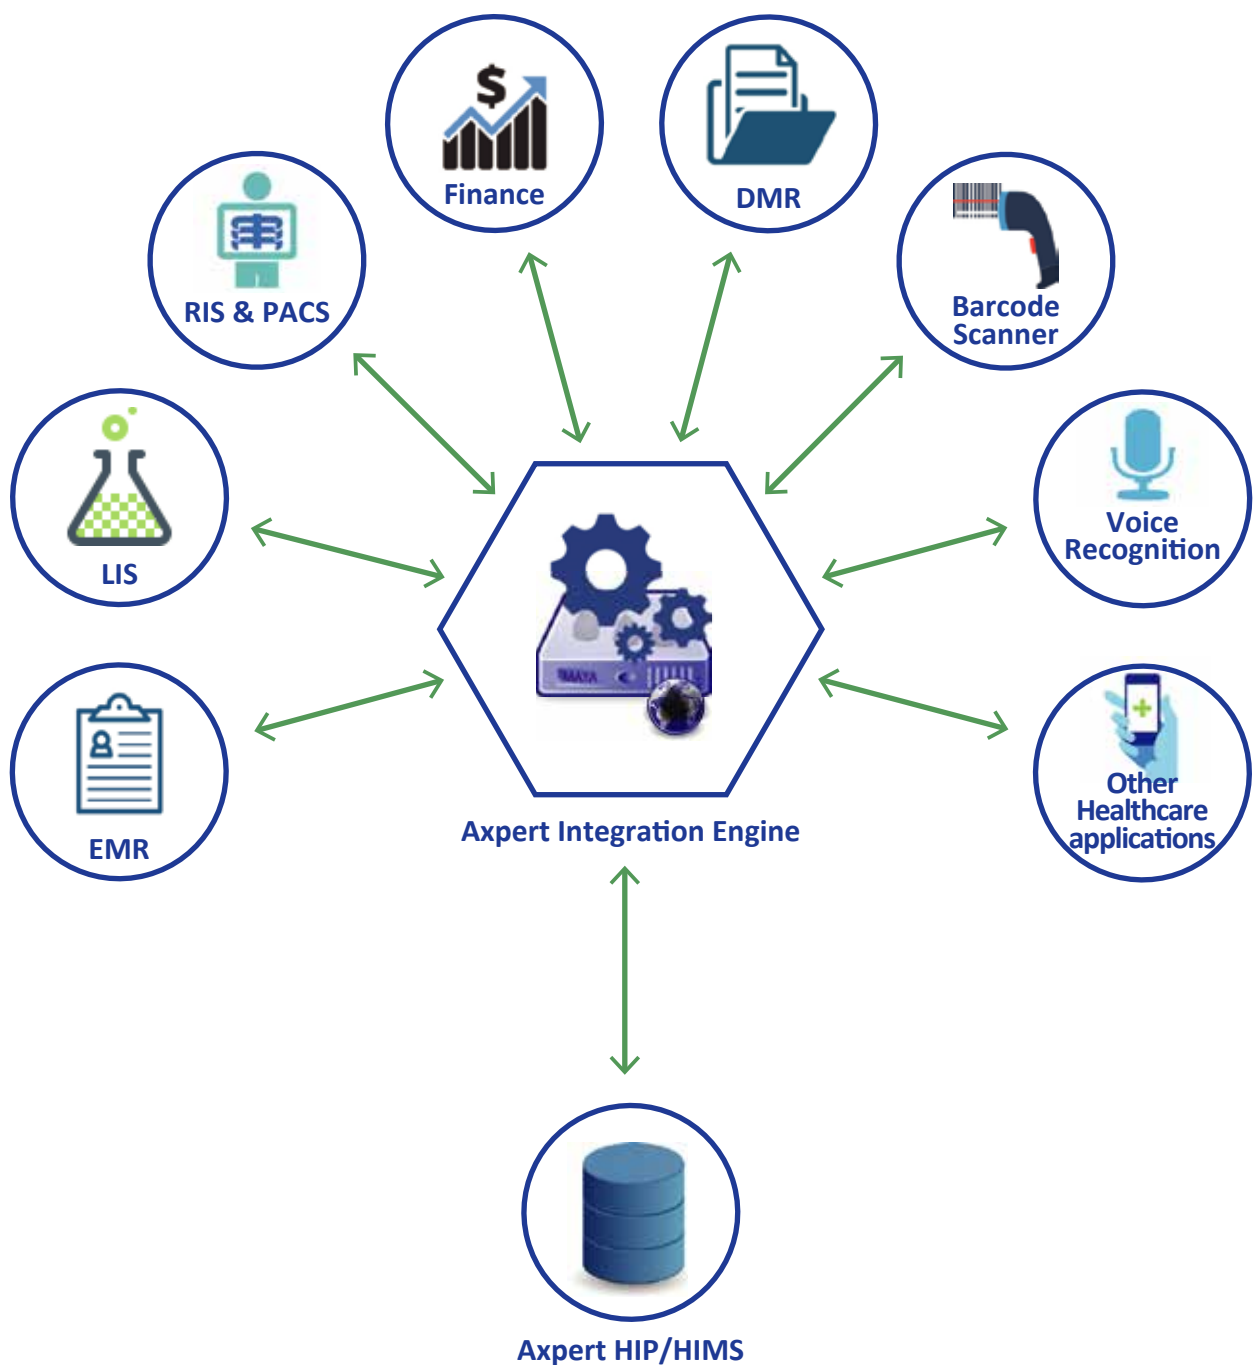

Whether you are a hospital, diagnostic centre or pathology Lab, Axpert HIP helps enhance administrative efficiency and records oversight maximizing patient care.

With Axpert HIMS you can gain complete visibility of patient lifecycle across all points of care and that too within a paperless environment.

Power of Maya

Maya is a robust integration engine, which helps Apxert HIMS system go to the next level by enabling the HL7 and CDA standard.

Agile has introduced Apxert IEMR (Interactive Electronic Medical Record) solution, which is fully HL7 compliant, which can be integrated with any HIMS system. Using “Maya” Apxert HIMS can be integrated easily with LIS, Lab equipment, RIS & PACS, EMR, Finance, Document management repository, Bar-code scanner, Voice recognition system and any other health care applications.

Technology Benefits

- Built on Robust US patented RAD Platform
- Low coding
- 100% Scalable and Customizable
- Vendor independent - Manage in house
- Hassle Free Upgradation
- Easy Maintenance
- Robust Workflow and Reporting Engine
- Strongest HL7 Integration Engine for Interoperability
- Multi Location /Multi Centre Handling Capability
- On Premise, Cloud and Hybrid Versions Available
- First a PAAS Model in Healthcare

Key Benefits Axpert HIMS

- Superior Patient Engagement
- Enhanced Patient Safety
- Improved Operational Efficiency
- Improved Productivity
- Higher Revenue
- Integrated with ICD 10, SNOMED, LOINC, CPT
- Integration with drug database
- Strong Inventory Management, reduction in leakage
- Real time dashboard and dashboard builder
- NABL and NABH accreditation reports
- End to End Integration
- GST enabled Finance system

Optional integrated CIMS and MIMS modules to immediately detect Adverse Drug reaction as below

- Drug to Drug
- Food Allergy
- Drug to Allergies
- Optional integration to the global pharmacy databases to meet the global medical tourism requirements for easy access to the native drugs that are approved in specific country where the patient belongs.

Axpert™ has clear road map to meet the national and international market needs

- Integrate with vendors and suppliers to replenish the consumables, disposals and drugs
- Patient Feedback Module after the treatment cycle
- Emergency and related services integration

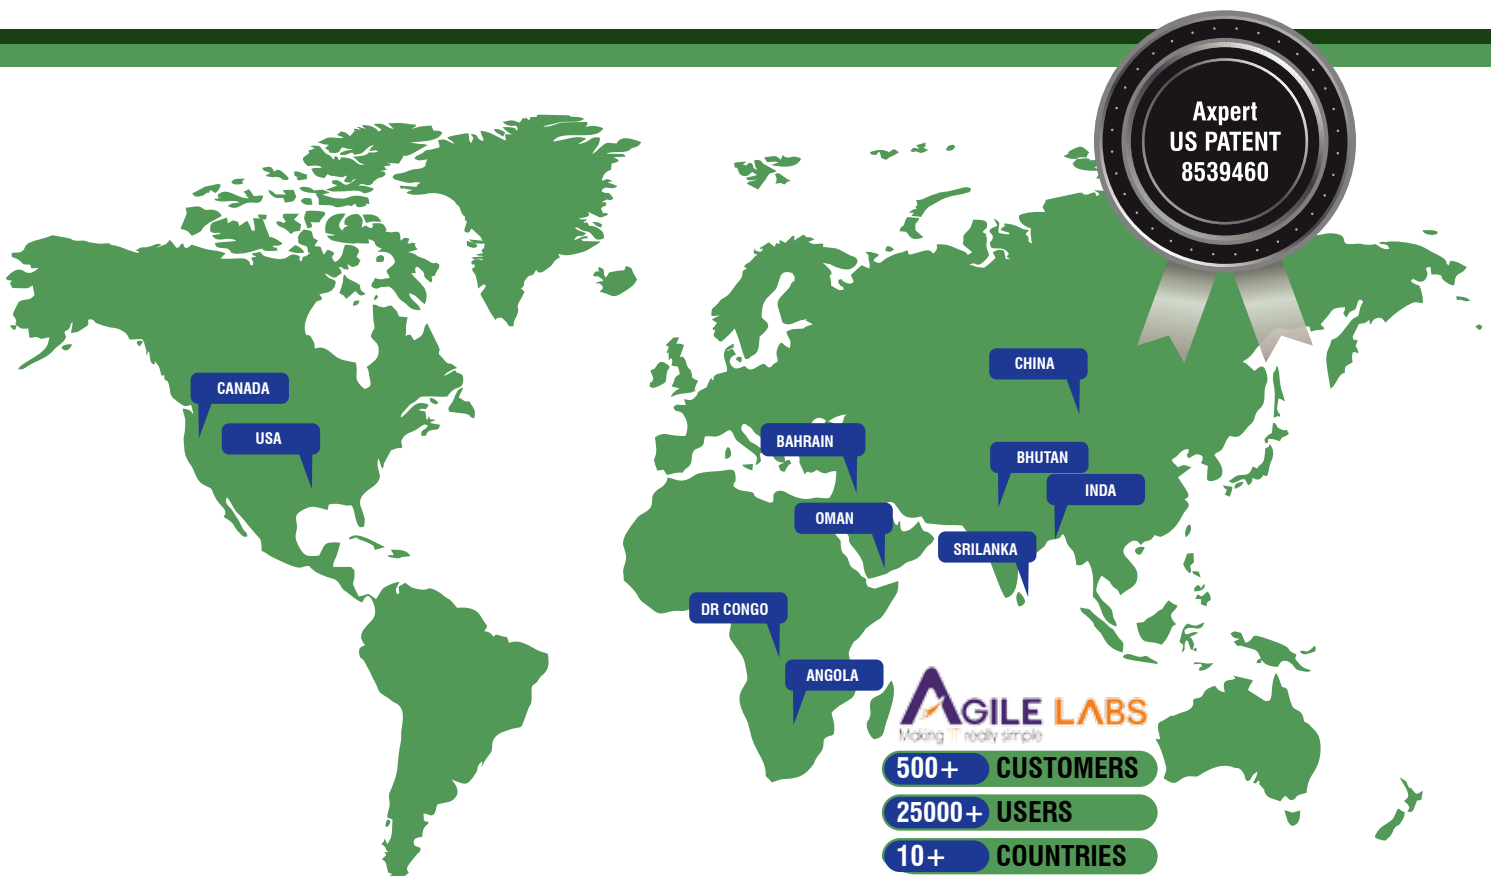

About Agile Labs:

Agile Labs was established in 2001, and since inception it has developed unique technologies that are patented in USA. 16 years of innovations has resulted in Axpert™ Platform. Axpert HMS is powered by a US patented technology - Axpert™ Rapid Application Development platform (US Patent # 8539460) from Agile Labs. It helps users access real-time data for specific functions.

Agile Labs is a unique technology company from India, with its own unique and patented technology platform Axpert™. It is one of the few IT firms from India to have stuck to a core product strategy, without getting distracted by growth and expansion pressures. Agile has seen the ups and downs in the marketplace, where technologies come and go, and has won the trust of discerning customers in India and abroad. It has successfully broken the 'Made in India' barrier to acceptance across the geographies, even in the sophisticated markets of US and Canada.

Axpert is a disruptive platform that can be used for custom software, ERP, Workflow systems, Portals, Distribution software, E-District, EForms and the likes. It lets users develop software applications by only defining the data structures and specifying business rules. There is no need to write code in the business layer or presentation layer using dot net, php or java. This reduces complex development cycle and simplifies the complete SDLC cycle. A complex application can be developed using Axpert at 50% of time, effort and skill compared to traditional software development.
